

The class “thumbnail” scales down an image and minimizes its size and puts it in a box.

```
<div class="row">
  <div class="col-lg-4">
    <div class="thumbnail">
      
    </div>
  </div>
</div>
</div>
```

The Image Gallery

A bunch of beautiful images that I didn't take(except for the first one!)
